Background

Over the years Luchador has been one of our most popular wines. Originally a Barossa Shiraz, today Luchador is sourced from Toro in North Central Spain from old vine Tempranillo. The original motto of the wine was “Body Slam Your Tongue!” And that is still the philosophy of the wine. We aim to make a wine that is bold, and big and make an impact. Toro is the perfect region for Tempranillo in this style, high elevation with hot days and cool nights.
